SENIOR PROFESSIONAL: CIVIL PROJECT EXECUTION AND MANAGEMENT

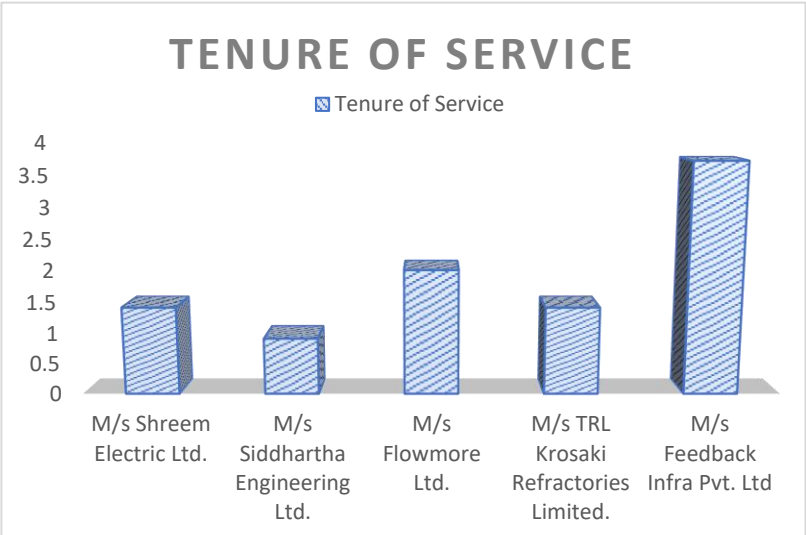
Achievement-oriented professional, targeting assignments in **Project Execution and Management** with organization of high repute; skilled at providing overall strategic project insight or managing specific project tasks & goals.

PRESENT JOB ASSIGNMENT

• Working as Assistant Manager Civil– with Feedback Infra Pvt ltd in Jharkhand Power System Improvement Project (World Bank Funded.) Heading as Civil Key Expert in Zone-II 132kV T/L Line Length-312 Km and 6 Nos of 132/33kV GSS & GIS.

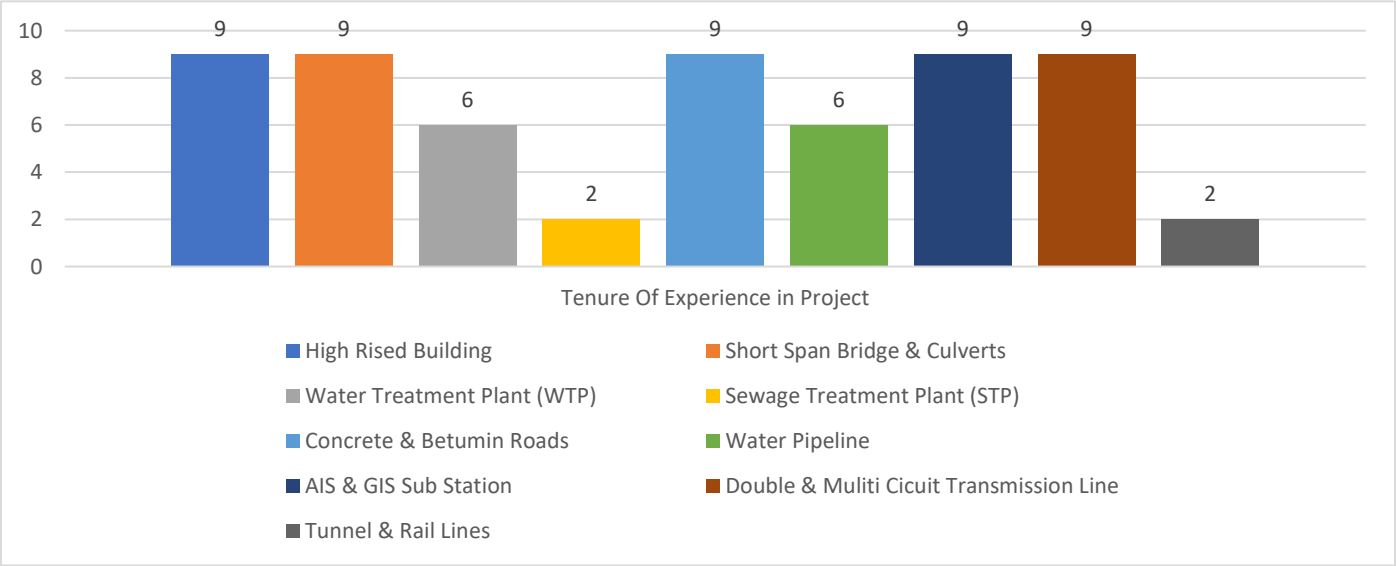
EMPLOYMENT DETAILS

¤ Having 7 + Year Strong Work Experience in Construction of 132kV EHV Transmission Line & 132/33kV Substation work scope all the civil aspects of construction including construction of High Raised Buildings, WTP, STP & Water Pipeline Project.



CORE COMPETENCIES

- CIVIL PROJECT PLANNING.
- MANAGEMENT & EXECUTION.
- FINANCIAL ADMINISTRATION.
- TECHNOLOGY INTEGRATION.
- QUALITY CONTROL & ASSURANCE.
- REPORTING & DOCUMENTATION.
- COST OPTIMIZATION & CONTROL.
- PLANNING / CONSTRUCTION.
- CONTRACT MANAGEMENT.
- CONSTRUCTION MANAGEMENT.
- SUBCONTRACTS MANAGEMENT.
- CLIENT BILLING / BUDGETING.
- CLIENT CO-ORDINATION.
- STAKE HOLDER MANAGEMENT SKILLS.
- INVOICING / MIS REPORTS.
- MONITORING / RISK ANALYSIS.
- RESOURCE ESTIMATION.
- RESOURCE ALLOCATION.
- QUANTITY SURVEYOR.
- COST CONTROL DIGITALIZATION.
- CONSTRUCTION ESTIMATING
- DRAWING & DESIGNING REVIEWING.
- RATE ANALYSIS & MAKING BOQS.
- SURVEYING & QUANTITY ENGG.
- DPR, MPR & QPR MAKING WITH PPT.



SUMMARY OF EXPERIENCE & PROJECT EXECUTED:

M/s. Feedback Infra Pvt Ltd. (Total Duration 15 September'2020 to Till Date)

Designation: Assistant Manager (Civil)

Project - Jharkhand Power System Improvement Project (World Bank Funded.) (Jharkhand Urja Sanchar Nigam Limited, JUSNL, Zone-I & Zone-II).

Project Details:

- 132/33 kV GSS at Shikaripara (2x50 MVA).
- 132 kV D/C 3 Ph. Dumka - Shikaripara Transmission line.
- 132/33 kV GSS at Jarmundi (2x50 MVA).
- LILO of 132 kV D/C 3 Ph. Dumka – Deoghar Transmission line at GSS Jarmundi.
- 1 132/33 kV GSS at Amrapara (2x50 MVA).
- 132 kV D/C 3 Ph. Amrapara – Godda.
- 132 kV D/C 3 Ph. Amrapara - Pakur Transmission line.
- 132/33 kV GSS at Hansdiha (2x50 MVA).
- 2 LILO of 132 kV Lalmatia-Dumka Transmission Line at GSS Hansdiha.
- 132 kV D/C Hansdiha - Jasidih Transmission Line.
- 132/33 kV GSS at Narayanpur (Devipur) (2x50 MVA.
- 2 LILO of 132 kV D/C 3 ph. Jamtara – Madhupur Transmission Line at Narayanpur (Devipur).
- 132/33 kV GSS at Sarath (2x50 MVA).
- 132 kV D/C Sarath-Palojori Transmission Line.
- 132 kV D/C Sarath-Chitra Transmission Line.

Expertise -

- Review all designs/drawings/reports prepared by the contractor with regard to functionality, general layout, adherence to technical specifications, standards, and good industry practices and recommend the same for client approval.
- Associate with contractor during route alignment of transmission lines / survey of sub-station sites and recommend alignment / landscaping quantities (proposed by contractor) for client approval.
- Supervises all on-site supply and installation works, physical surveys, material testing on manufacturer's works and on-site after receipt, and other works described in the contract.
- To assist the customer in exercising financial control while ensuring material progress.
- Verify the quantity of work executed by the contractor and certify the payment to the contractor and the customer shall accept the installation and release the payment to the contractor based on the certification.
- Monitor progress of works as per final L-2 schedule, certify achievement of defined contractual milestones and advise the contractor/client of potential bottlenecks recommending actions to mitigate them.
- Compiling systematic records of contractor's site activities to adequately document work progress and performance. These records support the determination of responsibility for the slow progress of contracts.

- Certifying the requirement of materials on site, based on site progress and time for erection and delivery of equipment and advising the contractor to ensure that materials are presented for inspection accordingly.
- Monitoring that the contractor's store is well maintained, access is controlled, documentation is up to date, electricity connection (including emergency backup) is available and stored material is placed on a brick padded/concrete area. The ground level of the shop should be higher than the surrounding / adjoining roads. Adequate security is deployed by the contractor to ensure safe custody of the material.
- Maintain adequate on-site presence to ensure project quality, monitor compliance with time schedules and quantity utilization as per invoice submission status, adequacy of materials and labor deployed by the contractor and assess work practices with respect to progress required Make, and advise the contractor, whenever necessary, to take appropriate action to accelerate progress and maintain quality.
- Maintaining and regularly updating the list of contractor's commitments and work status in respect of L2 network.
- Investigating and recommending all claims received from contractors for extension of time, additional compensation (including price variation), new items, additional work or expenses etc. In this regard, the PMC will quantify positive and negative volume divergence. Supporting the client in contracting quantities, reviewing justification and costing for new items (contractor prepared) and obtaining internal approval.
- Determination of the amount to be added or deducted for payment to the contractor because of price variation (as per contract), additional work or adjustment of advances, etc.
- Preparation of periodic progress reports as per the final draft and reporting mechanism.
- Ensuring that contractors follow all safety measures and provide regular safety training to their employees. In addition, PMC will also conduct regular security talks and on-site safety training.
- To oversee the implementation of Environmental, Social, Policy and Procedures (ESPPs) agreed between the Client and the World Bank and to include the compliance status in progress reports.
- Providing timely assistance and direction to contractors in all matters relating to the interpretation of contract documents, and other matters relating to contract compliance and project progress.

Previous Experience

Srinivas Pradhan under TRL Krosaki Refractories Limited, Belpahar, Jharsuguda, Odisha.

Designation: - Assistant Project Manager (Duration 17 June' 2019 – 12 September'2020)

- **Project: -**Augmentation and strengthening for TRL water supply scheme, Tunnel Kiln & 33/11kV Sub Station Building under TRL Krosaki Refractories Limited.
- **Scope: -**Pipe laying Line length-(100mm to 600mm dia.) Approx. 5 km. RCC Elevated Service Reservoir & Gravity Service Reservoir (4 no's RCC water Tower/sump capacity of 4lakh) and House distribution connection of 100 no's, Water Treatment Plant (WTP) & Sewage Treatment Plant (STP) - 7MLD, Approach bridge cum Gangway inside plant & Outside plant of town ship area. Construction of 3 no's Dolomite Tunnel Kiln 100 meter each & 4 no's Storage Yards with CR-80 Crain Rail Lines

1acre 1000 meter each & Construction of 2 no's 33/11kV Sub Station G+3 Building Projects with installation of 4 no's 33/11kV Transformer inside the plant.

Expertise -

- Expert Civil Engineer adept at seamlessly integrating site construction work with office responsibilities, ensuring exceptional execution, planning, management, and supervision. Equally proficient in overseeing complex construction projects and efficiently handling office tasks such as documentation, research, and coordination. A proven leader with a strong track record of delivering high-quality results, on-time project completion, and effective resource utilization. Committed to maintaining strict adherence to industry standards, safety protocols, and client satisfaction.
- Leading project scheduling including material & manpower planning. Anchoring on-site construction activities to ensure completion of project within the time & cost parameters and effective resource utilization to maximize the output. Supervising all construction activities including providing technical inputs for methodologies of construction & coordinating with Site Management.
- Attended and presented project monthly cost and status report, project financial reports (Project Revenue, Planned & Actual, Forecast and Margin).
- Negotiated with contractors and suppliers for materials and services and ensured that each stage of the project progresses on-time and within budget; reported regularly on progress to the client and Senior Managers. Conducted and directed various services like field engineering, value engineering, shop drawing reviews, construction quality assurance and inspection.
- Evaluating project, present cost/benefits analysis at project decision points and finalizing requirements & specifications in consultation with collaborators / promoters.

M/s Flowmore Ltd., BBSR, Odisha.

Designation: Assistant Manager (Civil) **(Duration 01 August' 2017 – 08 June'2019)**

Project – Construction of 4no's 220/132/33kV Grid Sub Station & 4no's 132/33kV Grid Sub Station Odisha Power System Improvement Project of Odisha Power Transmission Corporation Limited (OPTCL).

Project Details:

- 220/132/33 kV GSS at Aska, Chikiti, Kalimela & Jayapatna (2x100MVA) & (2x50 MVA) each GSS.
- 132/33 kV GSS at Sathasankha, Tirtol, Jayanagar & Baliguda (2x50 MVA) each GSS.

Expertise -

- Completed 8 Nos. 220/132/33kV Substation & Transmission Line (Aska, Chikiti, Sathasankha, Tirtol, Kalimela, Jayanagar, Jayapatna & Baliguda) at Odisha EPC Project for OPTCL.
- Experienced Civil Engineer with a demonstrated expertise in executing, planning, managing, and supervising both site construction and office work. Proficient in overseeing the entire lifecycle of construction projects, from initial conception and design to final execution and completion. Skilled in efficiently coordinating with architects, contractors, and subcontractors to ensure smooth project progression, adherence to specifications, and timely delivery. Adept at developing comprehensive project plans, managing resources, conducting cost estimations, and implementing effective risk management

strategies. Additionally, experienced in handling various office tasks such as preparing reports, conducting research, coordinating meetings, and maintaining project documentation. A dedicated professional committed to delivering exceptional results through effective leadership, teamwork, and attention to detail.

- Administered & supervise the construction of building control room, quarters superstructures and substructure and road (Bitumen & Concrete), culvert detailed drawing & design, estimating, geotechnical profile, 220/132/33 kV substation, all tower structure & equipment foundation, pile foundation, road, culvert, cable trench, drain & compound wall.
- Prepared bar chats & progress report for EPC Projects for OPTCL.

M/s Siddhartha Engineering Ltd., BBSR, Odisha.

Designation: Engineer (Civil) **(Duration 18 November'2016 – 31 July'2017)**

Expertise -

- Worked at 2 Nos. G+5 Storage Building Construction in Patrapada, Bhubaneswar and total 11 Nos. Substation (132/33 kV Sub-station) AIS & GIS, EPC Project for OPTCL, PGCIL & WBSETCL.
- Both manage & supervise the drawing, construction of road (Bitumen & Concrete), culvert, building of control room, any type quarters, superstructures and substructure detailed drawing & design, estimation, geotechnical profile, 220/132/33 kV substation, all tower structure & equipment foundation, pile foundation, road, culvert, cable trench, drain, compound wall.
- Created bar chats & progress report for EPC Projects for OPTCL, PGCIL & WBSETCL.

M/s Shreem Electric Ltd., BBSR, Odisha.

Designation: Assistant Engineer (Civil) **(Duration 23 July'2012 – 18 November'2016)**

Expertise -

- Led DC line project work & 20 nos. 33 kV Capacitor Bank Project all over Odisha, Managed construction of EPC Project 400/220/132/33 kV, Karnataka, Bangalore, 11 kV Capacitors Bank 30 Nos. for KPTCL & Civil Department. 110/11 kV S/S Project, Karnataka, Raichure, Googal for KPTCL.
- Proficient in executing, planning, managing, and supervising site construction projects to ensure timely and successful project completion.
- Facilitated drawing, construction of road (bitumen & concrete), culvert, building of control room, any type quarters, superstructures and substructure detailed drawing & design, estimating, geotechnical profile, 220/132/33 kV sub– station, all tower structure & equipment foundation, pile foundation, road, culvert, cable trench, drain& compound wall for OPTCL. Generated bar chats & progress report for EPC Projects for KPTCL, directed chain management system for company output, arranged meeting with clients and took required decision for work progress at site.
- Pivotal in completing 2 nos. of 220/132/33 kV Sub–Station, Lapanga, Khordha (Atri), Kuchei – Jaleswar 83 K/M transmission line complete.

Subarnapur Municipality, Sonepur, Odisha

Designation: Trainee Engineer (Civil) **(Duration 02 January'2012 – 23 July'2012)**

Expertise -

- Experienced Civil Engineer with a proven track record in executing, planning, managing, and supervising site construction projects. Proficient in overseeing all phases of construction, from initial project conception to final completion. Adept at coordinating with architects, contractors, and subcontractors to ensure adherence to project specifications and timelines. Skilled in developing comprehensive project plans, including resource allocation, cost estimation, and risk management strategies. Possess strong leadership abilities, enabling effective team management and collaboration. Committed to delivering high-quality results while maintaining strict adherence to safety protocols and industry standards.
- Monitored drawing, construction of road (bitumen & concrete), culvert, building, small bridges, estimating, superstructures & substructures detailed drawing & design, tendering & evaluation and geotechnical profile.

EDUCATION

- **B-Tech in Civil Engineering** from Spintronic Technology & Advance Research under Biju Patnaik University of Technology (BPUT) in 2015
- **Diploma in Civil Engineering** from Gurukrupa Technical School under State Council for Technical Education & Vocational Training, Odisha (SCTE & VT) in 2011.

OTHER EDUCATION

- Completed PGDCA & Auto CAD Course from govt of India society - Ministry of micro, small & medium enterprises Government of India, Kolkata in 2011.
- Completed Staad Pro V8i Course from Odisha Computer Application Centre (OCAC), Bhubaneswar in 2017.

TECHNICAL SKILLS

- Possess knowledge of MS Project, Primavera, MS Office, AutoCAD, Staad Pro - V8i 3D Max & Building Information Modeling (BIM).
